### THE WELLSBACH SYSTEM APPROVED.

Being Satisfied With the Test, the Light Committee Decide to Use These Lamps to Some Extent-To

Receive Bids for Electric-Lighting.

The Committee on Light met last night at 6 o'clock, and in accordance with a resolution from the Council, instructed the Clerk to advertise for bids for lighting the city with electric lights. The body also adopted a report of a subcommittee, recommending to the Council the use of a certain number of the Wellsbach lamps in place of the electric lights. There was some little discussion before this report was adopted, Mr. Witte op-

posing it. Those in attendance upon the meeting were Messrs. Wallerstein (chairman), Garber, Noble, Vaughan, Witte, and O. A. Hawkins, Upon motion of Mr. Witte. the Clerk was requested to advertise for bids for furnishing the city with 500 arclights, more or less, of not less than 1,300candle power, to be used for one year, beginning April 15th next. The committee decided to meet April 4th at 6 P. M to consider the bids.

USE OF WELLSBACH LAMPS. Mr. Wallerstein then submitted a report of the sub-committee which was appointed to look into the advisability of using the Wellsbach lamps, in the place of a certain number of the electric lights. The report, which was read, is as fol-

THE TEST SATISFACTORY.

Mr. Wallerstein stated that a few of Highlination as one are light. Many citizens preferred the "lamp light" to the electric ight, and the former could be BOARDERS; ALSO, TRANSIENT AND BOARDERS AND BOARDER

of i'lumination. but the labor employed was to be sub-ject to the approval of the city. Mr. Witte was opposed to the proposi-tion. He thought it was an entering wedge against the gas-works. If the city

could nurchase the berners and then con trol them, it would be all very well. THEIR PLAN OF OPERATION. Mr. Smith, the representative of the Wellsbach Company, was invited to ad-

dress the committee in regard to th

considerable foliage, which was the considerate c longe, which was the case here, it had been demonstrated that the "tamp light" was a great improvement on the arc light, as it was lower, and therefore, did not cast a shadow on the streets, as did a light elevated above th

frees.

Mr. Witte again opposed the plan. It would be another case similar to that of the water-gas plant, he said. He did not the water-gas plant, he said. The did not the water-gas a corporation in control of wish to see a corporation in control of the lights of the city. It was explained that such would not be the case under

adopted, after which the body adjour The License-Taxes Agreed Upon.

The Finance Committee met last night and in a very short while disposed of th question as to the licenses now charged those conducting business in this city. Those present were Messrs, Hardwicke and Zifnmermann. No change whatever was made in the licenses as they are now assessed, except that a uniform tax of \$100 was decided upon for all salvon-keepers and retail liquor dealers. Some saloon-keepers have heretofore only been paying a license of \$50. The committee adjourned, after being

Negro's Head and a Block of Ice. A block of ice weighing fifty pounds fell on the head of Ben. Thompson, a colored man employed at the Chesapeake and Ohio shops yesterday morning. Dr. Nuckols, of the ambulance corps, was summoned, and had to take eight stitches in the man's cranium, to say nothing of the damage to the ice.

The Mind as a Disease-Producer. (Dr. Herbert A. Coryn, in the National Review.)

"We know that a congested liver produces gloom, perhaps leading to suicide; another kind of gloom is perhaps due to a congested spleen; a disorderly heart produces apprehension of coming danger; certain intestinal conditions produce fear; morbid conditions of other organs mar the sense of strength and manhood or womanliness. We know, also, a few converse fruths; that gloom or despair may induce jaundice; that good news will make the heart beat vigorously; that cheerfulness will calm and regulate its ceats; that fear and anxiety may paralyze digestion.

We know, also, beyond any doubt, that Beecham's Pills, the established and staple liver regulator the world over, will so reorganize the working system of the human body that congested, morbid, or disordered conditions in men and women are absolutely and entirely removed, and with the ensuing good health come bright eyes and a happy heart. Beecham's Pills are for sale the world over at a quarter a box, although on their merits they are known proverbially to be guinea a box."
